CONSIDER IT. MR. WEBB.

Mr. Powdenty, the head of the Knights of Labor, is in town in the interests of the strike on the New York Central Railroad. It may respectfully be submitted to WEBB's consideration that when something which affects the public as directly as the results of the strike on the Central is due to a difference of opinion on one point, and each view is so doggedly maintained by each party to the dispute that argument, influence and interest are powerless to affect it, there is something to arbitrate.

There could not be a case more fit for arbitration, for an able examination of the grounds for the conflicting opinions and a clear decided judgment on the wisdom of one over the other.

That Mr. WESS consents to receive Mr. POWDERLY is a change for the better in that gentleman's attitude, and it is to be hoped that in this more rational frame of mind he may perceive the justice and nobility of referring the point in dispute to the State Board of Arbitration.

#### A DECIDED IMPROVEMENT. A concert for the sick babies was held at the Indian Harbor Hotel, Greenwich,

Conn., which netted a handsome sum for the little unfortunates, whose only friend is the generous stranger. The greatest interest was taken in the

event and the children, full of activity. lent quite a helping hand to the undertaking. The charming women at this resort are not through with their good work. They improve hours which women at Summer resorts usually devote to gossip to making clothing for the sick babies.

This is good example. Instead of wagging their tongues they ply their needles; in place of rending to bits the mantle which charity holds before human weaknesses they prepare clothes for the bodies of the little babies held in the bony arms of Poverty.

Ladies, your example is more commend able than even your gracious alms. To such true women, honor and greeting.

#### EDWARD SALLEY, HERO.

EDWARD SALLEY, engineer on a train tearing along towards the rear of a freight train directly ahead, bade the fireman look out for his life and, with his hand clutching the throttle, he looked out for duty as the engine crashed into the ca.

Probably Salley chews tobacco, drinks beer, uses bad grammar and has a smutty face oftener than not. But he has also a soul that CARLYLE could venerate and GREEKLEAF write an inspired ode upon. EDWARD BALLEY, engineer, is a hero.

### WEEKLY PAYMENT.

The success of the weekly payment in this State has been proven. The Factory Inspector reports that "the law is generally complied with, and is giving general satisfaction to all concerned." Some few workingmen are still denied

this justice. The corporations which so violate the law will be prosecuted, and, it is to be hoped, duly punished. The working folk are to be congratulated on the success of the measures taken to secure them a right, and THE EVENING World offers its hearty felicitations.

Describe the hearty felicitations.

Describe the photograph of a fine of the photograph of the p invention due to the Frenchman, Daoverse, have erected a noble monument in bronze to him in the National Museum at Washington. DAGUERRE cannot receive too great recognition as the proneer of the modern camera whose utility is so great.

The city of New York has actually downed the Steam Heating Company It has graciously consented not to rip up the pavements at its own caprice, but only through permit of Mr. Gilnor. This seems too beautiful to be true. The citizen may breathe once more freely.

Mr. BEATTE has purchased an odome ter. This is an ingenious little instrument arranged to measure mechanically by selling horseradish, "remarked Snively, the progress that is made by some moving object, it is hard to see what use whom less it." I don't know horseradish whom less it."

Mr. BRATTIE can have for it in his official capacity, because although he is a moving object he makes no progress whatever. The seat of his office chair would street-cleaning just as well.

A " sparrow" policeman has written his title to glory by impounding a cov with a very crumpled horn which belongs to President Hannison. The tony vacine wandered at large and browsed with SUBSCRIPTIONS TO THE EVENING WORLD baughty nonchalance on the neighbors lilies and jonquils. Hence her impound ment. All honor to the fearless " sparrow."

The Sea Serpent is figuring this year as corpse. Happily, the unreliability which attaches to all points concerning this sinuous monster of the barren ses still leaves hope that he may yet be seen in the full vigor of life. It is too bad to send the dear old thing to the Morgue.
